Bullock, B. F. PRACTICAL FARMING FOR THE SOUTH. Chapel Hill, Univ. N.C. press, 1944. 310 p. illus. 31.3 B87

"This book is important for two reasons. It came out of the author's own experience in attempting to lead rural people. It deals with matters that are vital to those who would live intelligently on the land. What is perhaps more important--it is simple and unpretentious and deals with concrete realities!"--Foreword.

Greenberg, D. B. SO YOU'RE GOING TO BUY A FARM. N.Y., Greenberg pub., 1944. 140 p. 31.3 G82

"This book is intended to furnish you with the 'Know-How'. It assumes that 'you're going to buy a farm' and that you want concrete facts on what to look for, where to find it, and how to get the most for your money."

Haystead, Ladd. MEET THE FARMERS. N.Y., Putnam, 1944. 221 p. 281.12 H33

"The writer has gathered many facts from a long and varied experience with agriculture and things agricultural. This book outlines the differences and likenesses between farm groups. It pries into daily life, folklore, and superstitions of and about farmers. The author has not written from the standpoint of any one group, crop, area, political bias or sociological hope. He has written as objectively as possible with the hope that there will be a new understanding of the farmer, out of which will come greater tolerance and cooperation."--The author.
